The changes of Zoom Rooms Hardware solution

Yealink

Gen1:
iPad+Conference phone

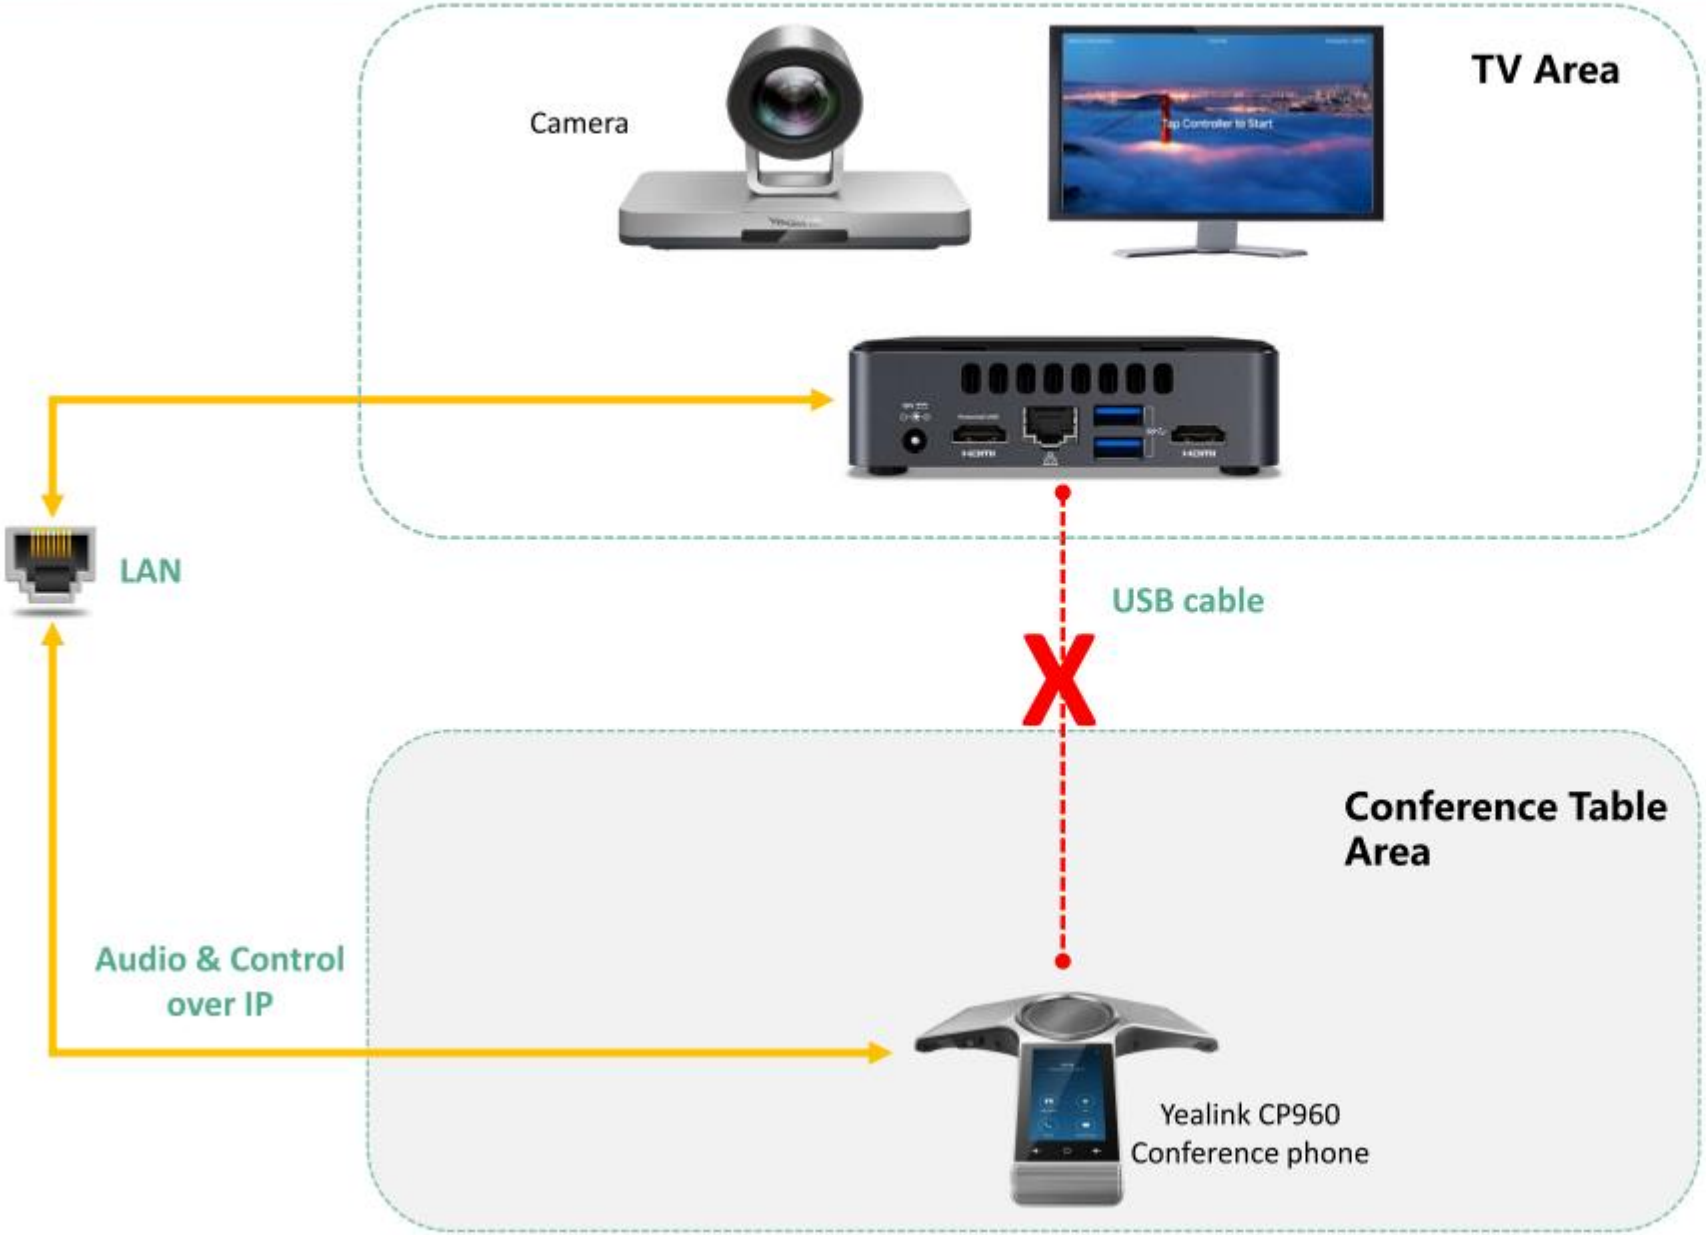
Gen2:
One CP integrates control, microphone, and speaker functions.
But CP requires two cables for deployment

Gen2.5:
Yealink one-cable solution

Two-cable solution

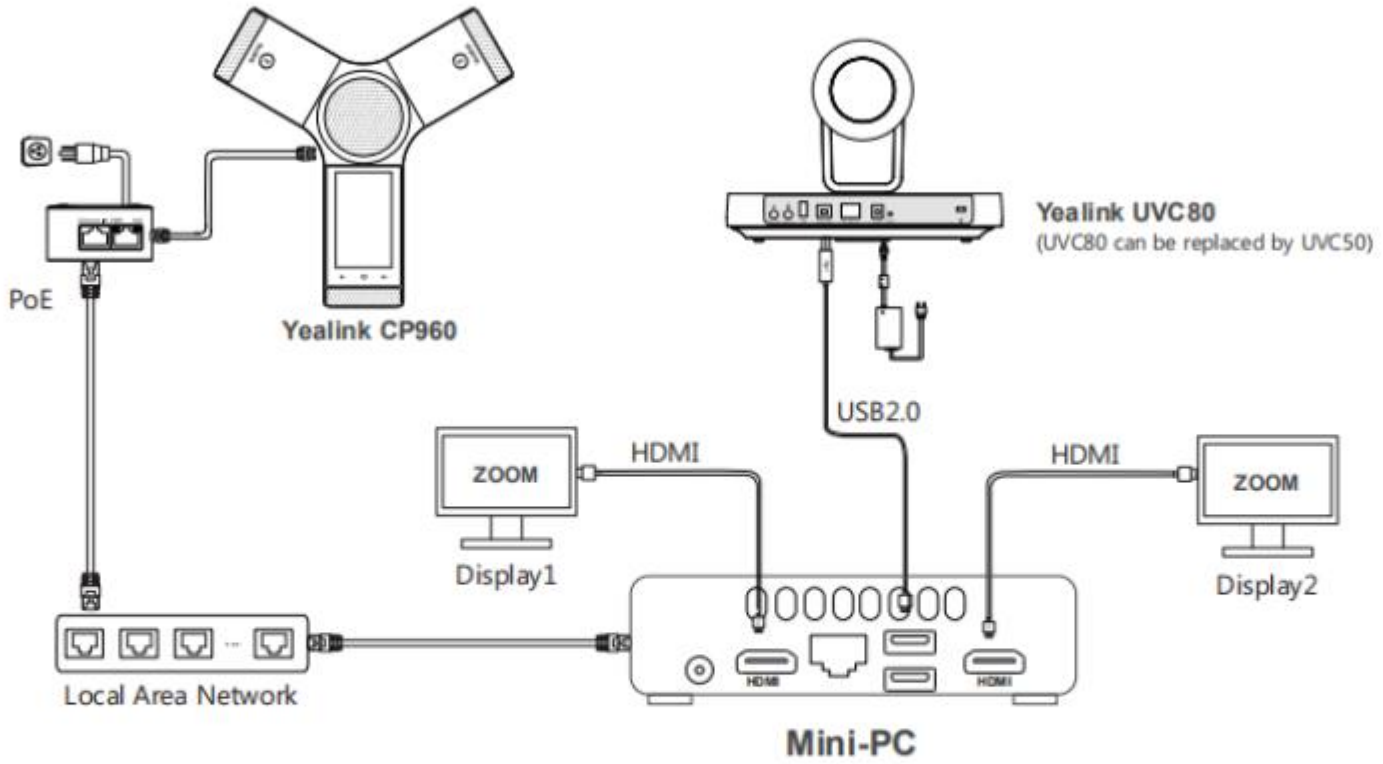
- USB cable needs to cross from the TV area to the conference table area

How Yealink CP960 Zoom Solution Simplify the deployment



Reduce the USB cable which needs to cross from the TV area to the conference table area (the most difficult part), so that Yealink CP960 solution can greatly simplify the deployment.

Deployment



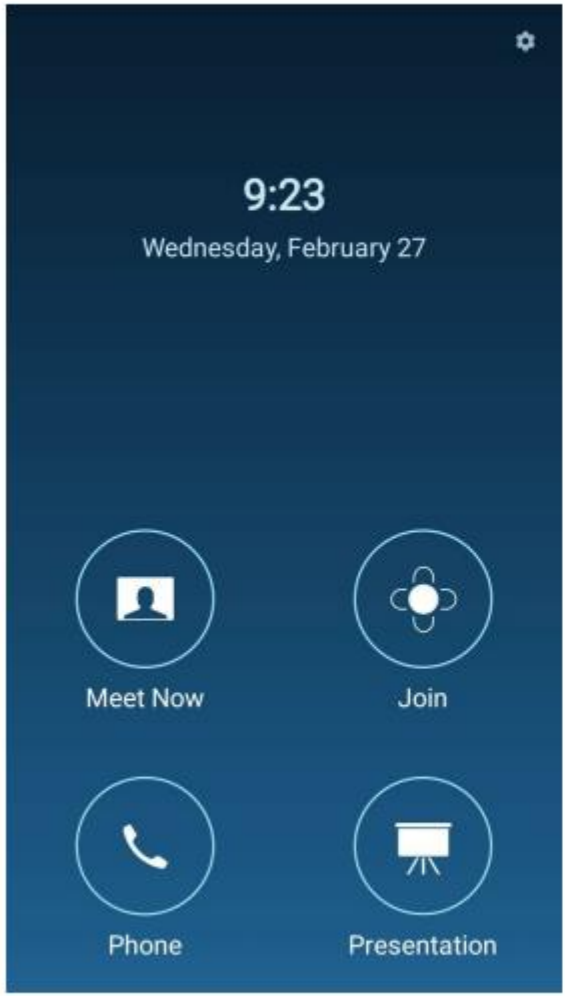
The installation and deployment is very easy, just 5~7 cables, and don’t need to cross from the TV area to the conference table area.

Sales Point1: Compact One-cable Solution

Benefit of Yealink CP960 in Zoom Rooms

- **Three-in-one.** One CP960 device acting as the Zoom Rooms controller, speaker and microphone ,makes the conference table much clean.
- **One cable for both Speakerphone Audio and Control makes the deployment much easier, U**SB cable is difficult to be extended.
- Distinguishing wireless expansion microphones.
- 5-inches with 1280x720 resolution and capacitive touch screen, ensure a good user experience.

Deeply integrated with Zoom Rooms



Key features of Yealink CP960-Zoom Edition

- Integrate Zoom Room Controller APP
- Mute/volume sync with ZR/ZRC/CP960
- Control the PTZ of Yealink UVC camera
- Meet now / Join meetings
- Presentation
